

1. Extract the ring from the water bottle

2. Form a number 8 shape

3. Fold the 8 shape to obtain a smaller circle

4. Cover the circle completely with SC

5. Close with a slip stitch

6. Ch1 and one more round of SC

7. Close with a slip stitch, Ch1 and 1 more round of SC

8. Make the necessary pieces and connect with needle and thread

9. SC6 in the upper corner of last ring

10. Ch1 to start a new round

11. SC5 from this round on. Ch1 for every new round started.

12. After 29 rounds, cut the nylon string. Repeat step with the other end of necklace

13. SC around the rings in a snake-like design

14. In the rings junction, slip the crochet hook through the stitches

15. Slip stitch after completing all rings. Cut the nylon string

16. Apply a small amount of E6000 glue to the clamp

17. Introduce the end of the necklace strap to the clamp and press using a flat nose plier. Do the same with the other end.

18. Ta daaa. Play with the colors. You can even apply beads. Hope you liked this tutorial
